

# *Vic High Construction Project Video Surveillance*

## **Deployment Plan**

**Policy 3517.3 Security Video Surveillance at School Sites (and  
corresponding Regulation 3517.3)**

October 28, 2020

### **1. DEPLOYMENT PROPOSAL FOR VICTORIA HIGH SCHOOL**

The Contractor (Durwest Construction Management) for the Vic High Seismic Upgrade and Expansion project has erected extensive rental fencing around portions of the school. People nearly every night are damaging the fencing and climbing over it to get inside the unsafe work area. Durwest and the District are faced with liability issues from intruders getting hurt on the construction site to theft of expensive equipment.

### **2. CONSULTATION PACKUP TO STAKEHOLDER GROUPS**

- A description of the problem that video surveillance deployment is proposed to control.
- A copy of the District Video Surveillance Policy.
- Details of alternatives tried or considered and why they were, or are, considered to be ineffective.
- The location(s) being proposed for the surveillance cameras.
- The length of time to be deployed, the reasons for the time frame selected and the date that the deployment will come up for review.

### **3. SUPPORT FROM STAKEHOLDER GROUPS**

TBD based on consultation period October 28, 2020 to November 11, 2020.

## **4. EVIDENCE OF ALTERNATIVES TRIED & RESULTS**

### **1. Fencing:**

Fencing has been placed around the project. Vandals take it down and at times damage the fencing. People climb over it to get inside. Fencing is an expected project cost and included in the construction project budget.

### **2. Security:**

The District has been paying for a security guard overnight. Because the security guard is continually harassed by the people on site, the company providing the static guard has advised it will now require two static guards on site as they deem one to be placed in an unsafe situation. The cost of \$6500 per month will increase to \$13,000 per month for the duration of the project or cessation of damage and break-in. The monthly cost is an unexpected, unbudgeted construction project cost.

### **3. Police Patrol:**

The Guard calls VIC PD nearly every night. Once police clear the area, people filter back to continue with intrusion and damage.

## **5. EVIDENCE OF ALTERNATIVES CONSIDERED BUT NOT ACTIONED & WHY OR N/A**

There are no alternatives that have not been actioned.

## **6. ACTIONS BEING CONTEMPLATED**

Video surveillance

## **7. PHYSICAL DEPLOYMENT PLAN**

Cameras would be installed along the fence line at the edge of the field by the track running in a north/south configuration and would extend beyond the fence line by 3 or 4 metres (see attachment

denoting  for camera location with 2 cameras installed at each .

Keeping the site secure is very important for safety, liability and risk reduction.

## **8. LENGTH of TIME FOR DEPLOYMENT and REVIEW DATE**

The Vic High construction project is identified as a two (2) year project with completion in August 2022. The cameras are proposed to be in place for the duration.

A review of the effectiveness will occur every six (6) months by Durwest and SD61 Capital Staff.

Cameras will be active from Dusk to Dawn and will not be accessed UNLESS there has been an incident.

Any footage will be restricted to SD61's Director of Facilities Services and Capital Project Manager.

## **POLICY 3517.3**

---

### **SECURITY - VIDEO SURVEILLANCE AT SCHOOL SITES**

#### **Preamble**

Video Surveillance is a complex issue in that it attempts to balance the rights to physical security and protection of property against the privacy rights of individuals. The intent of this policy is to ensure that the need to deploy video surveillance is compelling and that any resulting effects on privacy rights are minimized.

The Freedom of Information and Protection of Privacy Act for BC governs the use of video surveillance. It is intended that this policy will meet both the requirements and the spirit of this legislation as well as any interpretations and recommendations made by the BC Privacy Commissioner from time to time.

This policy is not intended for emergency deployments such as a short term covert action relating to a specific criminal investigation. This policy does not apply to non-school buildings owned or operated by the School District.

Video surveillance cameras are being deployed in increasing numbers to improve safety and reduce vandalism. There are concerns by some about video surveillance including the impact on one's sense of privacy; the effect on the atmosphere of the school; the educational messages with respect to trust, security and privacy; desensitization towards privacy issues due to indefinite use; the use for supervision instead of more appropriate methods and being used solely as a cost savings measure. There are others that claim it could be a cost saving measure and may reduce aberrant behavior when used appropriately. It is felt that people may have a higher expectation of privacy inside a school and during school hours. There is also concern that video surveillance does not address the underlying causes of the behaviors which it seeks to control. Finally, it is felt that all parties whose privacy may be impacted by video surveillance have the right

to have input on its deployment as well as the right to be aware that they are under video surveillance.

**Guiding Principles for Regulations:**

1. Ensure that consultation processes used are thorough, adequate and appropriate in the circumstances.
2. Ensure that there is a compelling reason for each deployment.
3. Ensure that video surveillance is only used after all other reasonable and less invasive alternatives have been considered.
4. Ensure that deployment is for a time frame realistically tied to the problem that led to the deployment.
5. Ensure that video surveillance records are secure and that access is severely restricted.
6. Ensure that reporting procedures are designed to build empirical evidence to assist in assessing the efficacy of future deployment requests.
